Boatyard Services

From our extensive undercover workshops in Cardiff we offer a wide range of specialist boat servicing, treatments, refit and repairs for motor boats and yachts. Our marina locations also offer a range of boatyard services and benefit from the support of the team in Cardiff. With over 35 years of dedicated professional service, we are Wales' leading boat maintenance and repair centre.

Our team of expert marine technicians, engineers and riggers receive ongoing technical and skill-based training and are accredited with qualifications from industry leading brands and suppliers. This ensures that the products we use, supply and fit are at the forefront of the latest marine technology.

Whether you are a competitive sailor, family cruiser or commercial operator, we provide a bespoke service, tailored to your budget and individual requirements. Our team have experience in working with all types of boats; composite, wood, aluminium, steel or ferro cement.

Boat Refit & Repair

Our undercover workshops and experienced team of paint technicians, GRP specialists, marine engineers and riggers allow us to offer a range of refit and repair services to a wide range of boat owners. From small repairs to major refits we can work with you to provide a bespoke service.

Insurance Repairs

Our refit and repair centre is trusted by leading insurance companies to carry out extensive insurance repairs including rig failures, collision damage, sinking, delamination, fire damage and groundings. We are experienced in carrying out a wide range of work such as major structural repairs and gelcoat repairs and renovations. All our projects are carefully managed from start to finish to ensure boat owners are kept up to date with the work and can get back on the water as quickly as possible.

Interior Refit

We offer a range of services to ensure your boat realises its potential and provides you with a relaxing, enjoyable environment. Whether you are looking to reconfigure the layout, add new cabinetry, replace soft linings or renew your cushion covers we can help you upgrade your boat. If you are looking to install heating, air conditioning, water tanks, solar panels or any other range of through hull fitting or upgrade we can work with you to provide a bespoke solution that is the best option for your budget and boat.

Electrics

From fault finding, system checks, installing new instruments to a complete rewire we offer a range of electrical services to help make your time on the water even easier. If you are looking to upgrade your navigation system, lighting, sound system or onboard appliances we can work closely with you to understand your requirements and help you make the best choices.

Deck Refit

We can help you get the most out of your boat whether upgrading to the latest technology or maintaining and repairing existing deck gear. We also offer a range of upgrades for your deck from traditional teak repairs and replacement to the fitting of synthetic teak decking.

By helping you optimise the layout of your deck we can offer advice on clutches, tracks and a wide range of deck hardware systems to ensure your boat is well equipped for your cruising or racing needs.

To ensure you have the latest deck gear technology, speak to our team about work such as winch servicing, hatch fitting, steering system upgrades and spinnaker pole installs.

Flexiteek

A synthetic teak marine decking is the ultimate alternative to traditional decking.

The Product

Available in a wide range of colour combinations, with superior lifelike graining, the range has carefully selected pigments to deliver an increased depth of graining. The material has been modified to offer improved durability and the best possible performing product which is more environmentally friendly. Flexiteek now uses less PVC, contains a phthalate-free plasticiser, and is REACH compliant whilst remaining 100% recyclable.

The Process

As installing dealers of Flexiteek we offer a fully guaranteed installation service to provide you with a new deck that has been fabricated to the highest standards in terms of design and performance.

Deck removal & preparation service

We take care of your boat and prepare the surface and fittings ready for your new deck.

Templating service

The creation of accurate, custom templates from which your deck will be fabricated.

Panel service

To cater for smaller areas such as cockpits and bathing platforms. We can supply pre-manufactured panels from templates for small or large areas which can be self-installed or fitted by our team.

Full/partial deck installations

We offer a range of fitting options from our covered, heated workshops which provide ideal year-round conditions, so your installation is not restricted or affected by the weather, to an onsite fit whilst your boat is afloat. Our experienced staff will survey your vessel and evaluate the most cost-effective option for you.

Osmosis Treatment Centre

We are one of the UK's leading Hot Vac Osmosis Treatment Centres.

01

Affected Area

Blisters and areas of high moisture readings

02

Gel Plain

Gelcoat removed to expose the laminate

Steam Clean

Exposed laminate is thoroughly steam cleaned.

03

Hot vac

Hot Vac pads run bake cycles throughout all affected areas until moisture levels come down within tolerances

04

Epoxy resin coat

Final steam clean followed by a coat of epoxy resin onto the bare laminate

Skim

Epoxy filler applied with large filling boards.

Sand

Surface is faired with sanders and fairing boards to achieve a smooth surface

Paint

Four coats of Gelshield Plus are applied in a controlled environment

Primer and Antifouling

The Gelshield plus is sanded smooth, then one coat of Gelshield 200 epoxy primer is applied followed by antifouling

Engine Servicing

Our experienced engineering team offers a wide range of technical expertise from our undercover workshops and marinas. Our team are accredited engineers for the installation and servicing of many leading marine brands.

Outboard and inboard servicing

To ensure you maximise your time on the water, with an engine that is running smoothly we offer a range of engine servicing, repairs, alignment, replacement and installations. We work on all makes of inboards and outboards.

-  Servicing
-  Installation
-  Rebuilds
-  Winterisation
-  Parts sales

Engine Sales

We hold a large stock of service parts across our sites for many leading brands and can arrange quick delivery of other parts. We stock a selection of smaller outboards for immediate delivery and can arrange delivery of larger outboards.

Paint Application

As an Awlgrip Application Centre and International Paint Application Centre we can ensure your boat is always looking at its best. Whether you need a colour match, full respray, paint repairs, yacht varnishing or antifoul we have a dedicated temperature-controlled spray booth to ensure the perfect finish.

01

Thorough clean

First stage of any paint job is to thoroughly clean the surface to remove contaminants and allow proper inspection of substrate.

02

Surface prep

This could include media blasting or sanding depending on the substrate.

03

Fairing

If required the surface is fully faired to provide the ultimate smooth surface ready for paint application.

04

Paint application

The specified paint system is applied in a controlled environment.

Products

GRP/FRP Fabrication

If you are looking to modify, upgrade or repair your vessel we can create a bespoke moulding to craft the perfect new addition, whether it's a new bracket for navigation equipment, a modification to your flybridge or fitting new seating, our composite team have the expertise and finesse to create the perfect finish. From small production runs, prototypes to one off builds we understand the complexities of using composites to ensure structural integrity is maintained and the smoothest of finishes achieved. We work with GRP and carbon fibre to allow us the ability to mould complex structures and shapes from a strong, durable yet lightweight material.

Rigging

Our rigging team consists of experienced sailors who understand how to get the best from your boat. Their knowledge and experience will ensure you get the most up to date advice based on your individual needs. From our rigging loft in Cardiff our team provides a complete specialist rigging service. We work with leading Spar manufacturers including Selden, Z Spars and Sparcraft to supply new spars as well as spare parts. We also work with all major furler manufactures and can supply, service and fit Furlex, Harken, Facnor, Profurl, Bamar, Plastimo and Karver.

Our riggers support our teams in our marinas around Wales and are happy to travel to undertake work further afield. We can also provide advice and support direct to the customer wherever you are in the world. We can also supply and fit a range of rope and deck hardware.

Other services on offer include mast crange, mast storage, preparing masts for road transport and rig safety checks.

Architectural Rigging

The use of wires and tension bars offer architectural projects flexibility and versatility, whilst ensuring reliability and longevity. Architectural rigging can be applied across a wide range of styles suitable for exterior and interior use. We can work with you from the concept and design stage right through to installation to ensure that you get the best solution for your budget and aesthetic vision.

Fully mobile service

01

Masts, Furlers and Spars

We can supply and service masts and spars from Selden, Z spars and Sparcraft from design stage to completion. We can supply and service all makes of furlers both inmast and genoa furling.

02

Standing rigging

Our riggers work with the highest quality KOS wire and are experienced in making up standing rigging with quick turnaround times. Whether you are looking for a complete standing rigging replacement or a single new wire our team can offer you a competitive quote. All our fittings are from leading brands Stalok, Hamma and Bluewave. We can also supply rod and fibre rigging.

03

Running rigging

If you are looking to upgrade your running rigging or invest in some new mooring lines, all of our marinas offer a large selection of ropes from leading manufacturers including Marlow, Liros and Gottifredi Maffioli. We stock a wide range of products that we can finish to suit your individual requirements whether you are a competitive racer or family cruiser.

04

Deck Hardware

If you are looking to upgrade your deck hardware, we offer a range of solutions to help improve your sailing experience. We work with leading brands to ensure you have access to the latest technology and can help design and upgrade your deck to ensure a safe and efficient system. Speak to our riggers about your specific requirements for items such as your blocks, cleats, winches, clutches and tracks.

Valeting

Regular, scheduled valeting will help keep your boat looking its best. We offer a range of valeting, polishing and detailing services that we can cater to your requirements. Whether you are looking for a hull polish and wax, a one-off exterior wash-off, a regular valeting package or interior valeting we can ensure you spend your time enjoying yourselves on the water by having your boat looking great for your arrival. We also offer a number of specialist services such as teak cleaning, RIB cleaning, carpet cleaning and upholstery cleaning.
